

DELEGATION OF POWERS, 2011

(AMENDED UPTO 06-04-2026)

CMD's FOREWORD

Date: 6th August, 2011

Achieving and sustaining the growth momentum to fructify the vision of our organisation requires clarity, speed and methodical decision making. Unleashing the potential of the human resource is perhaps the cornerstone of any developmental plan. Empowerment along with well thought out systems in place, drives an organisation along the growth trajectory. Delegation of Power (DOP) is a dynamic tool, which can be effectively used for devolution of authority to the right levels for enhancing the efficiency of a process. Along with the above objectives, the general inflationary trends have necessitated periodic revisions in DOP. This volume is the latest in the series of such revisions after considering the suggestions received from various quarters.

Efforts have been made to redefine the powers available at different levels with special emphasis on empowerments at lower levels. The objective is to allow the shifting of focus towards strategic planning at the higher echelons of the Management team. The team members at the middle levels can remain focused on effective execution in an environment of system driven processes.

The DOP symbolizes the faith that the higher management reposes in the managerial team. I hope the provisions contained in the DOP, 2011 shall be effectively and responsibly used for the purpose as brought out above and shall be utilized for discharge of duties in a manner as expected at each level. I am open to suggestions for improvements on the document for achieving the ultimate objective of Corporate Excellence.
